	Agenda Items	Actions
1	<p>Welcome, Apologies and Introductions</p> <p>CR welcomed everyone to the meeting and apologies were noted.</p>	
2	<p>AOB</p> <p>There were no items of AOB</p>	
3	<p>Updates</p> <p><u>Training Collaborative</u></p> <ul style="list-style-type: none"> - An Expression of Interest for membership of the WY ATR Training Collaborative has been circulated and the first meeting will take place on the 16th September. The WY Training Collaborative will support the delivery of our vision by; developing/delivering bespoke co-produced training where we know we have gaps, coordinating training across the system to ensure a quality and consistent approach, developing a training matrix and a competencies and knowledge framework for the system. There has been a huge amount of interest from colleagues across the system in being part of the training collaborative. <p><u>Trauma Informed Primary Care Workshop</u></p> <ul style="list-style-type: none"> - An invite has been circulated for the WY Trauma Informed Primary Care Workshop which will take place on the evening of the 23rd September. The workshop will be led by Dr Warren Larkin and is open to all colleagues working in primary care across the Partnership. The workshop will provide an introduction to the WY ATR Programme, provide an overview of the impact of adversity and trauma and the case for change and co-produce the next steps. <p><u>NHSE/I NEY Safeguarding Strategic Partnership Group</u></p> <ul style="list-style-type: none"> - EI reported that she presented our WY ATR Programme and ambition at the NHSE/I NEY Safeguarding Strategic Partnership Group and received positive feedback on our approach and the work being undertaken. NHSE/I have been in contact since the presentation to see how they can support us to promote our work nationally. 	
4	<p>NHSE/I Expression of Interest Outcome Letter and Response</p> <ul style="list-style-type: none"> - EI and CR presented the letter in response to the outcome letter received from NHSE/I and asked members for views and any amendments/ additions - Rob Webster, Kersten England and Jackie Marsh are in support of us writing to NHSE/I 	

	<ul style="list-style-type: none"> - Letter includes a formal request for a more detailed level of feedback, in addition to asking for sight of the successful bid and a request for a review of the panel decision - Under each point raised within the outcome it has been evidenced how we addressed this in our EOI - The group asked CR and EI to consider rewording certain sections of the response letter and being really clear from the beginning what our ask is of NHSE/I. - Members in agreement this is a clear concise response with the additions mentioned. - CR and EI to share final version with Kersten, Rob and Jackie for sign off 	
5	<p>Changing Systems Outputs and Resources</p> <ul style="list-style-type: none"> - MC presented where we are up to including the output and resources, with accompanying slides - Discussed resources that have arisen from this work which will be available for members to use in addition to the report and recommendations. - The first section of the report tackles the more abstract issues, with a focus on how individuals make meaning out of trauma, how they move beyond trauma and what a life after trauma looks like - Discussed the importance of commissioning trauma informed services, co-ordinating existing services, and connecting to community-based support - Second section looks at identifying and preventing adversity and trauma in children and young people – recommendations around this include - person centred holistic support, open to rapid engagement of flexible duration, outcome and impact focussed, and co-produced and delivered with people who have lived experience. - Third section focusses on how we prevent the re-traumatisation of people who are in services, and what are the system changes and drivers we need to stimulate. Recommendations include – centering on the person’s whole needs, restoring the individual – opportunities for re-socialising people who have become used to rejection and isolation (considerations of extra help in school and youth services), minimising the number of moves for looked after children by providing leaving care / transition support teams from an earlier age. - Final section focus - what different things need to happen at place and at system level. Recommendations include – supporting and growing local ATR partnerships (examples of this already happening), resource the connections between place and system by funding strategic place-based leads for ATR across the life course, building the voice of lived experience as a central tenet by pooling budgets and assets, and creating a culture of communication within organisations / agencies. - MC outlined the next steps including training, developing more flexible services, longer funding arrangements, learning and evaluations, and further ATR service mapping. - MC concluded by discussing the wicked issues. - CR discussed next steps – formal launch of this report and the findings – end of September (6 month point on from the knowledge exchange) 	
6	<p>Developing our Strategy & Approach</p> <ul style="list-style-type: none"> - EI discussed this group identifying how we want to develop the strategy with a focus on co-production. - Considered having specific writing groups for each chapter – gave example of women and girls group writing a chapter. - Bring these groups together to create the document 	

	<ul style="list-style-type: none"> – The need to identify themes for the strategy and asked members to agree on these themes. – We have experts who are keen for involvement – Needs to be ready to launch on 1st April 2022 – Will use information from CREST, WiFi report etc. – This strategy will not be duplicating anything being done at place, but rather how we work together as a system – Consideration of taking this conversation to the WY Multiple Disadvantage Consortium and the ATR network (next network meeting is dedicated to the strategy) – Will discuss further in the network and consortium and feedback within our next meeting 	
7	<p>Next Steps and Close</p> <ul style="list-style-type: none"> • Mayor having a round table meeting which EI and CR will be attending – will be discussing ATR at that session 	
<p>Date and time of next meeting: 2nd December, 11am – 1pm</p> <p>Future Meetings:</p> <ul style="list-style-type: none"> • 3rd March, 2pm – 4pm 		

Action Log
