

Across West Yorkshire (WY), we will work together to establish a sustainable WY Adversity, Trauma and Resilience, Community Action Collective, to support the success of our ambition for; *West Yorkshire to be a Trauma Informed and Responsive system by 2030 and develop a whole system approach to responding to multiple disadvantage*

Outcomes

Involvement and engagement of People who live and work in WY will be at the centre of the Adversity, Trauma and Resilience Programme workstreams and activities.

All opportunities in the co-production process will be accessible to everyone taking part and nobody will be excluded.

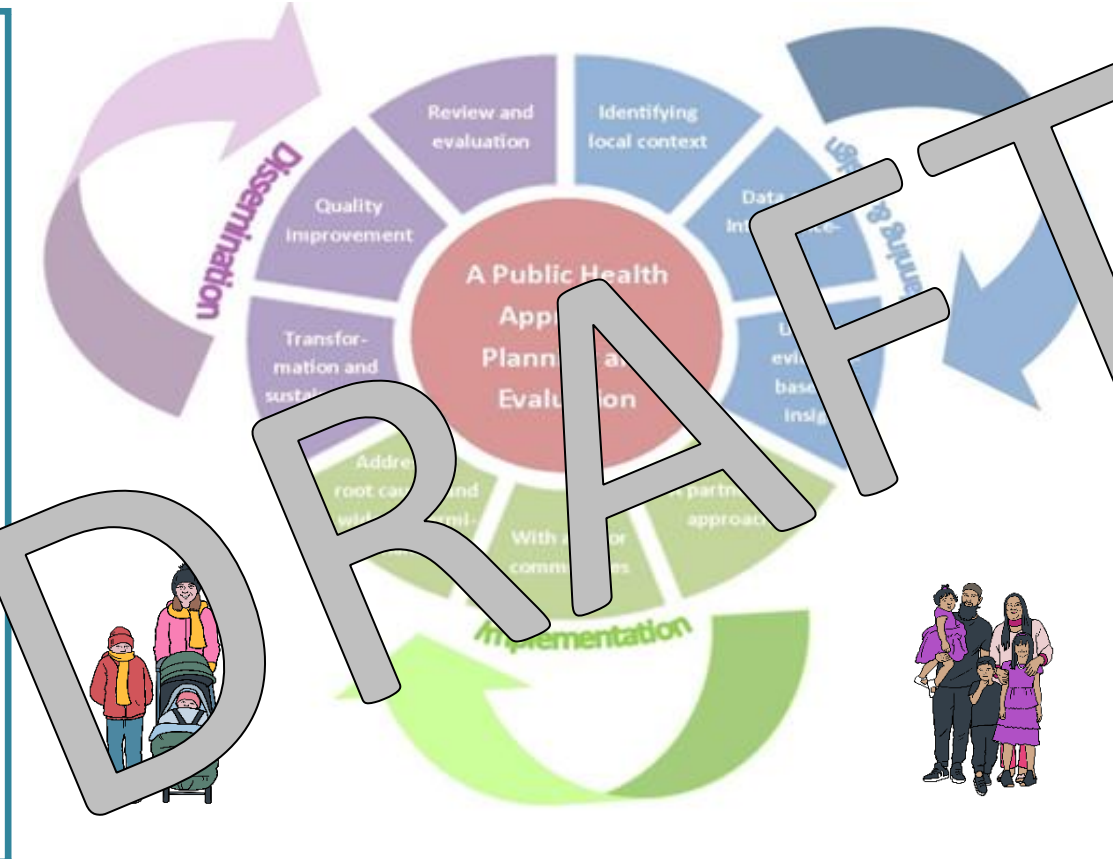

All engagement and coproduction will be representative of the diverse population across WY.

Coproduction will be trauma informed and people will be invited from the start of all work/activity

We build people’s confidence and capacity, making sure that everyone’s voice is heard

WY ATR Programme and workstreams will work together with those who deliver and access our services to design and deliver the outcomes that matter to them, informed by what has happened to them.

Co-production will run through the culture of all organisations working to be trauma informed.

Outputs

- Community and engagement plan
- Gaining wisdom from people with lived experience and developing two-way relationships
- Peer networks and support
- Increase people's self-worth and confidence,

Inputs

Funding - VRU Funding

- Develop and produce trauma informed coproduction guidance and training
- Develop and produce training or Training for ‘developing Language reflectively to support a trauma informed approach.
- Scoping for public movement/campaigns
- Identify collaborative and match funding to support sustainability
- Supporting local initiatives and priorities through partnership working
- Intelligence and information sharing,
- Young People and Community involvement, engagement, and coproduction
- Development of a communications and engagement plan

Impact

Systemwide increased capability and understanding of what being trauma informed and responsive means – including consistent use of language:

- Number of people/professionals involved and engaged
- Are the goals of the co-production process linked to the existing priorities?
- developing more equal partnerships between people who use services, carers and professionals
- Feedback from people/professionals involved
 - a. build people’s confidence and make sure everyone can have an input.
 - b. help people set up or become part of supportive peer networks
 - c. help people to make connections with other communities or groups
- Increased learning and development for all involved
- Improved community relations
- Recognising and responding to our population and workforce assets
- Reduction of the root causes of adversity and trauma
- Early recognition and prevention of adversity and trauma
- Reduction of adversity and trauma
- Prevent systemic retraumatisation
- Victims who feel supported
- Reduction in violence towards women & girls
- Empowered, engaged communities
- Safe, healthy and thriving communities
