

Adversity, Trauma and Resilience

This is my pledge:

Jenny Lingrell

Service Director, Children's
Health & Wellbeing, Wakefield

Date: 23/6/2021

My Pledge is to work across the system of children's health and wellbeing commissioners and providers in Wakefield to promote trauma informed practice and resilience.

And, to design and deliver pathways that sit within the Wakefield Families Together model so that the needs of children, young people and families are met at the earliest opportunity and prevent needs from escalating. Within this model of support there is an aspiration that all services promote resilience and are underpinned by an understanding of the impact of trauma and the best ways to respond.
