

Adversity, Trauma and Resilience

This is my pledge – heading here

I pledge to work with partners in Leeds to consider how to take action to prevent Adverse Childhood Experiences. I will also work to raise awareness of ACEs with the aim of ensuring a trauma informed response to people's behaviours or actions. I will challenge the concept of resilience and do all I can to work towards all children and families in Leeds living in nurturing environments.

Your Name

Kathryn Ingold, Consultant in Public Health

Date here 10th June 2021
