

# Adversity, Trauma and Resilience

## Advocacy for affected groups

**Matt Greensmith**

Public Health Speciality Registrar

Public Health Specialist Registrar

11/06/21

I pledge to support the excellent ongoing work of the WY Violence reduction unit, The Children and families programme and the Improving Population Health Programme more broadly as we work to support groups and communities affected by violence and trauma through the implementation of the Integrated Community Framework.

I pledge, where possible to empower affected individuals, groups and communities and advocate for them when they are unable to represent themselves.
