Agenda Items	
1	**Welcome & Introductions** EI welcomed everyone and asked that people introduce themselves.
2	**Theory of Change** EI asked the group if this item could be moved to the end of the meeting.
3	**Context and Landscape** EI outlined the purpose of this workstream.
4	**What do you already know, what would you like to know?** CK provided a presentation and explained the content. 📄 PDF DIGITAL LEAD FOR ATR 9 SEP 2022.pdf CK asked if there were any questions or comments. LC said that we need to think about language as we can set the tone for the language. LC provided an example in respect of somebody taking her Instagram account and when she tried to report it, nobody was interested and this raises anxiety in that somebody can use your details/identity. CK provided a link to her website in the chat www.childrenandtech.co.uk and advised the group that there was a lot of information on it. CK advised the group that she had carried out some research with children and their parents (6,500 children and 1,500 parents) and only 30% of parents were concerned for their children which raised the concern that people don't understand this space. EI asked the group to think about the following:

	- What do we need to do collectively? - Who is missing from this group - What do you already know, what would you like to know? - What do people know about, what do we already use? - How can we make a difference? CK advised that the online safety bill was correct as yesterday (08/09/2022) but with the new government Liz Truss, is now changing which highlights how quick things move. The passage of the bill will now be, at the earliest, 2025. CK suggested that we need to think about: - Websites within West Yorkshire - User to user spaces - Needs to be in education settings - Client software - Internal intranets - Software that communicates - Policies/guidelines for personal use - Phone/email and working from home - GDPR - Social focus for children LB suggested that perhaps we could work on ethical guidance. The group discussed what concerns people the most. EI/CK agreed to meet and reflect on the conversations that have taken place today, to look at the broader membership and what do we want to do now then break this down into sections.
5	**Collection of Resources – what do people know about, what do we already use?**
6	**Future Meetings**
7	**Next Steps and Close**
The next meeting will take place on Friday 18th November, 10:00-12:00	

Action Log			
1.	EI/CK agreed to meet and reflect on the conversations that have taken place today, to look at the broader membership and what do we want to do now then break this down into sections.	EI/CK	Open
