Agenda		Actions
1	<p><b>Welcome &amp; Introductions</b> New members introduced themselves.</p>	
2	<p><b>Actions Notes</b> Approved as an accurate record.</p>	
	<p><b>Updates</b> <i>Expression of interest:</i> EI/CR have completed first draft. If anyone would like to review, please get in touch.</p> <p><i>Programme Governance:</i> EI reported Kirsten England is leading the group; If do get EOI, this group will have conversation about allocation. Shared Governance Structure diagram (EI will share diagram and who is on the boards). Reported that looking at starting T&amp;F groups soon (community, pilot, then trauma informed); and currently working out how this feeds into place. EI will add youth justice as well as adult. T&amp;FG will be directly from this group. EI/CR will be writing out for people to join.</p> <p><i>Case Studies &amp; Pledges:</i> <b>ACTION: To send templates out with action notes for pledges.</b></p> <p><i>Calderdale Adults Safeguarding Board and Health &amp; Well Being Board:</i> EI/CR reported on meeting; shared that some people are still unsure on</p>	1

	<p><b>Adversity, Trauma and Resilience Strategy Board and Strategy</b></p> <p>CR reported on first meeting last week: Have representation from place; taken an action through that group about attending other health and wellbeing boards; discussed EOI, and finances around delivery plane. Working with Lisa Cherry, Katherine Nibs, Warren Larkin. Hoping to buy a chunk of each experts time, to share expertise and support at place. MW suggested Zoe Lodrick too.</p>	
	<p><b>Changing Systems</b></p> <p>MC thanked all for contributions in mapping and reported on progress so far:</p> <ul style="list-style-type: none"> <li>• Had over 250 interventions so far for children. Trying to get an overall view of areas of provision and what kind of recommendations we can make going forward.</li> <li>• 50 interviews being conducted to add to mapping of services.</li> <li>• Work around support for 20-25 year olds.</li> <li>• A quarter to a third is provided through voluntary/third sector. Need to build on networks to reach smaller/under radar groups.</li> <li>• Have not asked about capacity of services and their ability to meet local need in unmet areas.</li> <li>• Undertaken an extensive literature review (will be completed today) on areas e.g. domestic abuse, education and exclusions, criminal justice, poverty...</li> <li>• Will also be reviewing equalities impact: taking a broad view of</li> </ul>	

	<p><b>Task &amp; Finish Groups and Pilots</b>  <i>Training Collaborative</i>  <i>Community Action Collective</i>  <i>Trauma Informed Schools</i>  <i>Primary &amp; Secondary Care</i>  <i>Family Resilience and Early Help</i>  <i>Potential Future workstreams</i></p> <p>Covered in Item 3. EI/CR asked what other pilots would be helpful to look at:</p> <ul style="list-style-type: none"> <li>• EM - young people have been asking for community based activities.</li> <li>• NH - they are trying to shift schools from behaviour policies to relationship policies, so all staff use a trauma-informed approach for children. Macro and Micro levels. Offer to all schools. Post-adoption support too.</li> <li>• LO - although police have looked at different ways of working, it has come about that only ¼ domestic crimes reported have resulted in charge. Mental risk to survivors. How do we input a trauma-informed system to support process from health and wellbeing point of view. Commissioner has commissioned a safe lives, 51% of survivors receive no court support. Knock-on effect of making this a trauma-informed system could be huge.</li> <li>• JP - something that looks at self-harm. Significant correlation with suicide, particularly to young boys. Suicide rate to come down by 2030. Need to intervene as those issues emerge. EI agreed and reported it has come up a lot in system mapping.</li> <li>• MW - speech trauma and communication development needs. Covid has caused a change in speech-language needs for young people. Look at how we upskill staff as many feel underconfident in this area. Duty to help develop those skills, e.g. telling the time. Not always indicative of learning difficulty: Have capacity, just not enough exposure.</li> <li>• NF - in health department at University of Bradford (local cohort), only weeks before were receiving child services. Not sure if our staff are in a place where they understand challenges for young people. EI agreed and will be in touch soon regarding funding.</li> <li>• EC - seeing a shift, “knowing where you’re going” is now a priority area. Need to be able to demonstrate shift. EI agreed and shared that they are working with Prince’s Trust, looking at a “continuity of mentor” programme from year 7 till 25; have grant funding available where they get to 18-25, and they can bid in for grant for interview travel/clothes, or for starting business, etc...</li> <li>• CW - works really closely with Princes’s Trust, developing packages to</li> </ul>	
	<p><b>Presentation: BDCF2 Resilience Passport for a Whole School Approach - Sue Francis, Advanced Practitioner and Project Lead for Trauma Informed Care</b></p> <p>SF shared slides on The Resilience Passport.  LO thanked SF and particularly liked that it is a whole family approach.  KL interested to know how this is working locally.  SF rolling this out in schools. Would like to see commissioning of this.</p>	

	<p><b>Next Steps &amp; Close</b></p> <ul style="list-style-type: none"> <li>• EI/CR complete EOI.</li> <li>• Look at development of strategy. Suggest next meeting dedicated to this.</li> <li>• If anyone has any other presentations/ideas for topics, please get in touch.</li> <li>• Please get in touch in advance if you are unable to attend and will</li> </ul>	
<p><b>Date and time of next meeting:</b> 12<sup>th</sup> August 2021, 10:00 – 13:00, MS Teams</p>		

<b>No</b>	<b>Action</b>	<b>Lead</b>	<b>Status</b>
1	To send templates out with action notes for pledges.	EI/CR
